

Bash scripting journal

Aritz Bercher

August 16, 2018

Abstract

This journal will help me keeping track of my progress in bash scripting

28.01.18 ~ The alternative bashguide

A few days ago, I started reading the “bashguide” provided by the alternative. It is very well done. Today I wrote a little script that I called “exercise.options.sh” where I managed to use option parsing and if conditionals.

16.08.18 ~ read command to read a file line by line

I read this post about the `read` command, and how to loop through a file:

<https://stackoverflow.com/questions/1521462/looping-through-the-content-of-a-file-in-bash>
